### WHAT IS THE CHAMBER?

The Chamber is a voluntary organization of the business and professional community. The area's economic well-being directly relates to the caliber of work done by the chamber.

This nonprofit organization unites hundreds of business and professional firms, thus creating a unique central agency working to improve business and the quality of life by building a better economy. Small businesses interested in prospering and creating a healthy environment in which to conduct business comprise more than 95% of the membership.

Most important, the Chamber is people... people just like you. People who realize that through the Chamber they can accomplish collectively what no one of them can do individually. The strength of the Chamber lies in attracting the greatest number of members, thus creating a pool of resources from which to draw ideas, energy and finances.
